ENLINK MIDSTREAM REPORTS FIRST QUARTER 2015 RESULTS

DALLAS, May 6, 2015 — The EnLink Midstream companies, EnLink Midstream Partners, LP (NYSE: ENLK) (the Partnership) and EnLink Midstream, LLC (NYSE: ENLC) (the General Partner), today reported results for the first quarter of 2015.

First Quarter 2015 — EnLink Midstream Partners, LP Financial Results

The Partnership realized adjusted EBITDA of \$129.9 million, net income from continuing operations of \$35.0 million, net cash provided by operating activities of \$170.6 million and distributable cash flow of \$98.7 million for the first quarter of 2015. The Partnership's first quarter 2015 gross operating margin was \$278.9 million and operating income was \$50.8 million. Adjusted EBITDA, distributable cash flow and gross operating margin are explained in greater detail under "Non-GAAP Financial Information," and reconciliations of these measures to their most directly comparable GAAP measures are included in the tables at the end of this news release.

"We are pleased with our first quarter performance and continue to execute on our growth plan in this challenging commodity environment," said Barry E. Davis, EnLink President and Chief Executive Officer. "Consistent with our growth strategy, the Partnership has completed approximately \$3.7 billion of drop downs, growth projects and strategic acquisitions in the last year. As we look ahead, we remain well positioned for stability and long-term growth."

The Partnership's operating and reporting segments are based principally upon geographic regions served and consist of the following: the Texas segment, which includes natural gas gathering, processing, transmission and fractionation operations located in north Texas and west Texas; the Louisiana segment, which includes pipelines, processing plants and NGL assets located in Louisiana; the Oklahoma segment, which includes natural gas gathering and processing operations located in Oklahoma; the Crude and Condensate segment, which has historically been referred to as the Ohio River Valley segment and which includes rail, truck, pipeline and barge facilities to deliver crude and condensate in Texas, Louisiana and the Ohio River Valley and brine disposal wells in the Ohio River Valley; and the corporate segment, which includes operating activity for intersegment eliminations and gains or losses from derivative activities.

Each business segment's contribution to the Partnership's first quarter 2015 gross operating margin is below:

- The Texas segment contributed \$144.8 million of gross operating margin.
- The Louisiana segment contributed \$65.2 million of gross operating margin.
- The Oklahoma segment contributed \$40.5 million of gross operating margin.

1

-
- The Crude and Condensate segment contributed \$28.2 million of gross operating margin.
 - The Corporate segment contributed \$0.2 million of gross operating margin.

The Partnership's first quarter 2015 operating expenses were \$96.2 million; general and administrative expenses were \$41.9 million; depreciation and amortization expense was \$90.0 million; net interest expense was \$18.9 million; and income from equity investment was \$3.7 million. Net income per limited partner common unit for the first quarter of 2015 was \$0.03.

First Quarter 2015 — EnLink Midstream, LLC Financial Results

The General Partner reported net income of \$24.3 million for the first quarter of 2015. The General Partner's cash available for distribution was \$52.1 million, which resulted in a 1.29x coverage ratio on the declared distribution of \$0.245 per General Partner unit for the quarter. Cash available for distribution is explained in greater detail under "Non-GAAP Financial Information," and a reconciliation of this measure to its most directly comparable GAAP measure is included in the tables at the end of this news release.

About the EnLink Midstream Companies

EnLink Midstream is a leading midstream provider formed through the combination of Crosstex Energy and substantially all of the U.S. midstream assets of Devon Energy Corporation (Devon). EnLink Midstream is publicly traded through two entities: EnLink Midstream, LLC (NYSE: ENLC), the publicly traded general partner entity, and EnLink Midstream Partners, LP (NYSE: ENLK), the master limited partnership.

EnLink Midstream's assets are located in many of North America's premier oil and gas regions, including the Barnett Shale, Permian Basin, Cana-Woodford Shale, Arkoma-Woodford Shale, Eagle Ford Shale, Haynesville Shale, Gulf Coast region, Utica Shale and Marcellus Shale. Based in Dallas, Texas, EnLink Midstream's assets include over 9,100 miles of gathering and transportation pipelines, 16 processing plants with 3.6 billion cubic feet per day of processing capacity, seven fractionators with 280,000 barrels

per day of fractionation capacity, as well as barge and rail terminals, product storage facilities, purchase and marketing capabilities, brine disposal wells, an extensive crude oil trucking fleet and equity investments in certain private midstream companies.

The Partnership and the General Partner announced the filing with the Securities and Exchange Commission of their respective annual reports on Form 10-K for the year ended December 31, 2014. Each report was filed on February 20, 2015 and is available at the Investors page of EnLink Midstream's website at www.enlink.com.

Non-GAAP Financial Information

This press release contains non-generally accepted accounting principle financial measures that we refer to as adjusted EBITDA, distributable cash flow, gross operating margin, growth capital expenditures, maintenance capital expenditures and the General Partner's cash available for distribution. We define adjusted EBITDA as net income from continuing operations plus interest expense, provision for income taxes, depreciation and amortization expense, impairment expense, stock-based compensation, gain on noncash derivatives, transaction costs, distribution of equity investment and non-controlling interest and income on equity investment. We define distributable cash flow as net cash provided by operating activities plus adjusted EBITDA, net to EnLink Midstream Partners, LP less interest expense, interest rate swap, cash taxes and other, maintenance capital expenditures and Predecessor adjusted EBITDA. Gross operating margin is defined as revenue minus the cost of purchased gas, NGL, condensate and crude oil. Growth capital expenditures are defined as all construction-related direct labor and material costs, as well as indirect construction costs including general engineering costs and the costs of funds used in construction. We define cash available for distribution for the General Partner as distributions due to the General Partner from the Partnership and the General Partner's 25% interest in the adjusted EBITDA of EnLink Midstream Holdings, LP ("Midstream Holdings") less maintenance capital, which is distributed to the General Partner on a monthly basis, less specific general and administrative costs as a separate public reporting entity, the interest costs associated with the General Partner's debt and current taxes attributable to earnings.

The amounts included in the calculation of these measures are computed in accordance with generally accepted accounting principles (GAAP) with the exception of maintenance capital expenditures and the adjusted EBITDA of Midstream Holdings. Maintenance capital expenditures are capital expenditures made to replace partially or fully depreciated assets in order to maintain the existing operating capacity of the assets and to extend their useful lives. Adjusted EBITDA of Midstream Holdings is defined as earnings plus depreciation, provisions for income taxes and distribution of equity investment less income on equity investment.

The Partnership and General Partner believe these measures are useful to investors because they may provide users of this financial information with meaningful comparisons between current results and prior-reported results and a meaningful measure of the Partnership's and the General Partner's cash flow after it has satisfied the capital and related requirements of its operations.

Gross operating margin, adjusted EBITDA, distributable cash flow, growth capital expenditures, maintenance capital expenditures and cash available for distribution, as defined above, are not measures of financial performance or liquidity under GAAP. They should not be considered in isolation or as an indicator of the Partnership's and the General Partner's performance. Furthermore, they should not be seen as a substitute for metrics prepared in accordance with GAAP. Reconciliations of these measures to their most directly comparable GAAP measures are included in the following tables.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Although these statements reflect the current views, assumptions and expectations of our management, the matters addressed herein involve certain risks and uncertainties that could cause actual activities, performance, outcomes and results to differ materially than those indicated. Such forward-looking statements include, but are

3

not limited to, statements about future financial and operating results, projected or forecasted financial results, objectives, project timing, expectations and intentions and other statements that are not historical facts. Factors that could result in such differences or otherwise materially affect our financial condition, results of operations and cash flows include, without limitation, (a) the dependence on Devon for a substantial portion of the natural gas that we gather, process and transport, (b) our lack of asset diversification, (c) our vulnerability to having a significant portion of our operations concentrated in the Barnett Shale, (d) the amount of hydrocarbons transported in our gathering and transmission lines and the level of our processing and fractionation operations, (e) fluctuations in oil, natural gas and NGL prices, (f) construction risks in our major development projects, (g) our ability to consummate future acquisitions, successfully integrate any acquired businesses, realize any cost savings and other synergies from any acquisition, (h) changes in the availability and cost of capital, (i) competitive conditions in our industry and their impact on our ability to connect hydrocarbon supplies to our assets, (j) operating hazards, natural disasters, weather-related delays, casualty losses and other matters beyond our control, (k) a failure in our computing systems or a cyber-attack on our systems, and (l) the effects of existing and future laws and governmental regulations, including environmental and climate change requirements and other uncertainties. These and other applicable uncertainties, factors and risks are described more fully in EnLink Midstream Partners, LP's and EnLink Midstream, LLC's filings with the Securities and Exchange Commission, including EnLink Midstream Partners, LP's and EnLink Midstream, LLC's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Neither EnLink Midstream Partners, LP nor EnLink Midstream, LLC assumes any obligation to update these forward-looking statements.
